

EXPENSIVE TRIP.

(Correspondence of Associated Press)
BERLIN, Aug. 16.—One of the most expensive motorboat trips on record is reported from the Jungfersee, a lake west of Berlin. Despite the prohibition against the use of such craft under a regulation adopted by the federal council last August, a party of six essayed a short trip. A police boat noted and overhauled them after a short chase. The motorboat, valued at 13,000 marks, was declared forfeited to the state.

Estimates made by the department of agriculture put the 1916 best sugar acreage at 768,509 acres. This is 104,200 more than in 1915 and 254,000 more than in 1914.

Healthy Skin
DEPENDS ON KIDNEYS.

The skin and the intestines, which work together with the kidneys to throw out the poisons of the body, do a part of the work, but a clean body and a healthy one depends on the kidneys. If the kidneys are clogged with toxic poisons you suffer from stiffness in the knees in the morning on arising, your joints seem "rusty," you may have rheumatic pains, pain in the back, stiff neck, headaches, sometimes swollen feet, or neuralgic pains—all due to the uric acid or toxic poisons in the blood. This is the time to go to the nearest drug store and simply obtain a 50c package of "Anuric," the discovery of Dr. Pierce of Buffalo, N. Y. Then drink a cup of hot water before meals, with an "Anuric Tablet," and notice the gratifying results. — Advertisement.

HUGHES SHEDS COURT SOLEMNITY EASILY

Republican candidate welcoming an embryo suffragette.

The Republican candidate for president quickly falls into western styles of greeting people, and nothing brings out the Hughes smile as the greeting given him by children at the various stations along his itinerary. Both of the candidates for president have the happy faculty of making friends with children, President Wilson having already demonstrated his ability as a campaigner in this field.

BUYERS OF BONDS
MUCH INTERESTED

In the Good Roads Movement in the State of West Virginia Now.

(SPECIAL TO THE TELEGRAM)

MORGANTOWN, August 16.—A letter from Harris, Forbes and Company, bond buyers in West Virginia, indicates the interest that is being taken by the bond purchasers in the road improvement made through and by the money furnished for the bonds in the various districts of West Virginia. When outside parties have so much interest in our welfare, it indicates that the proposition should be carefully considered by the various counties and districts at home. The letter is as follows:

"We have your favor of the first instant, and appreciate you informing us as to the method that will probably be adopted for the maintaining of the improved roads.

"Now that you have explained that there isn't any plan outlined yet, we would urge that some legislation be adopted that would look after the upkeep of the roads—both from the financial and the physical ends. As we have impressed upon you before, the various counties and districts are incurring very heavy liabilities and every safeguard should be taken to not only keep up the sinking funds for the payment of the principal and interest on the bonds but the funds for the upkeep of the highways should be so managed that every highway will be kept in A-1 condition, and furthermore, we think some standard system of upkeep should be adopted throughout the entire state, and supervision under the state highway department given."

FOREST FIRES

In Greece Are a Source of Particular Chagrin to Queen of That Country.

(Correspondence of Associated Press)
ATHENS, August 16.—The immense forest fires that have swept Greece during the last few weeks have been a source of particular chagrin to the Queen Sophie, for the Queen of the Hellenes has been the leading figure in the conservation movement in Greece. The barren mountains that three thousand years ago were clad with verdure have been a text for the queen in her crusade to teach the modern Greeks the need of preservation of the woods and streams. Each year

Queen Sophie plants a tree with her own hands as an example to the women of Greece. But this year she had no luck, for during the night following this Arbor day ceremony a wandering shepherd passed with his flock and the newly planted tree was ignobly eaten by the sheep.
